INVESTITURE 2024-2025

Head Girl

I want to sincerely thank my School, Teachers and my parents for guiding me and shaping me into the person I am today. I want to express profound gratitude to each and every one of you who believed in me and entrusted me with this responsibility. I also congratulate the entire student council. I look forward to collaborating with you all to make the flag of the school flying high and ensure that our school continues to thrive.

I am inspired by the leadership of those who came before me. As your new Head girl I will be committed to fostering a spirit of respect and collaboration and uphold our school's values. Through teamwork and dedication we can make this year a one to remember. Let's make it a great year ahead!

-Tejaswini Lonkar
9IG

Head Boy

Having enjoyed and cherished every stage of my journey to this great privilege, I find it a great opportunity to serve the school responsibly and honestly. This role allows me to voice student opinions to the teachers and administrators. I have heard students mention certain aspects of the school where they want improvement. One of my first actions will be to act as an intermediary between the teacher and the student body and find methods to improve any situation that is found to be troublesome.

-Aryaman Dash

INVESTITURE 2024-2025

A message from the Principal - Ms. Aditi Mukherjee

Once every year, I have the honor of addressing the newly selected Student Council of Billabong High, witnessing you step into this position of responsibility and influence. The investiture of a position, whether it be for the leaders of a nation or the leaders of a school, is always a solemn occasion. A change of guard is not only a moment to look towards the future but also a time for introspection about past mistakes.

An investiture at our school is not a mere formality but carries real and practical significance. You will be expected to make difficult decisions, prioritize your community over yourself, and lead in a very tangible way. The leaders standing before us today have been chosen not solely for their academic brilliance or athletic prowess, but because their teachers and elders recognized their innate power to lead. Once entrusted with this power, you will be expected to correct any mistakes of your predecessors and build upon their efforts to enhance our school.

Learning to wield power effectively is a skill that must be cultivated from an early age. In the exercise of your duties and responsibilities, maintain a clear conscience that allows you to sleep soundly at night. Show neither fear nor favor towards any individual and act as your conscience directs you. As you assume your positions, know that you carry with you the trust of your friends, teachers, and parents.

While this is a solemn moment for us, we must also recognize it as a day of celebration. New leaders bring new ideas, and new ideas bring a fresh breath of change. Therefore, with the utmost confidence in your skills and abilities, I say to my dear student council: your ideas will be heard, your voices considered, and you will be integral to the decision-making process.

I conclude by wishing you the very best in your endeavors.

Stepping Beyond School Walls

'Verse and Tale Extravaganza' Competition organised by -Pawar Public School, Pune

When I found out I was selected for the storytelling competition, I was over the moon! However, as the days of practice went by, nerves crept in, and I considered quitting. But I reminded myself of how much this meant to me and decided to push through. On the day of the competition, the sheer size of the school and the thought of a massive audience made me want to turn back. Yet, when I stepped onto the stage, I gave it my all. Even though I didn't win, I felt a surge of pride for having the courage to share my story with everyone. A special thanks to my school for giving me the chance to represent our school and for believing in me.
